# Welcome Address

Dear friends and colleagues,

welcome back again to Milan, San Raffaele Scientific Institute for the 15th edition of EURO-EUS.

This year, after the fantastic success of 2017 edition the Executive Board has chosen to continue in the process of defining the indications of EUS in clinical practice and finding consensus on debated topics.

This year Cyst Neoplasm of the Pancreas diagnosis, treatment and follow up will be strongly presented and discussed by some of the most important expert worldwide on the field and we will try to reach to a consensus on the best management of these neoplasia.

Furthermore you will be extensively exposed to live cases transmitted from the PancreatoBiliary Endoscopy and Endosonography Division of the Pancreas Translational and Clinical Research Center and from the Florida Center of Interventional Endoscopy and the Asian Institute of Gastroenterology, two of the most renowned Endoscopy Centers all over the world.

EURO-EUS Faculty will perform all the different diagnostic and therapeutic endoscopic and EUS procedures indicated in pancreatobiliary diseases.

Like during the past edition we have scheduled an Hands on Training Program that, following the sold out session organized last year, has been divided in two session covering the whole day allowing to a higher selected number of participants to improve their EUS skills under the supervision of a Team of Trainers.

So welcome again and let's have a great EURO-EUS 2018!!!

Erwin Santo, Julio Iglesias Garcia, Paolo Giorgio Arcidiacono
