Dear friends and colleagues,

welcome back again to Milan, San Raffaele Scientific Institute for the 16th edition of EURO-EUS.

This year, after the fantastic success of the previous editions, the Executive Board has chosen to continue in the process of defining the indications of EUS in clinical practice and finding consensus on debated topics.

This year Pancreatic inflammation and rare focal lesions diagnosis, treatment and follow up will be strongly presented and discussed by some of the most important experts on the field worldwide and we will try to reach to a consensus on the best management of these diseases

Furthermore you will be extensively exposed to live cases transmitted from the Pancreato-Biliary Endoscopy and Endosonography Division of the Pancreas Translational and Clinical Research Center, from the Florida Center of Interventional Endoscopy and the Asian Institute of Gastroenterology, two of the most renowned Endoscopy Centers all over the world.

EURO-EUS Faculty will perform all the different diagnostic and therapeutic endoscopic and EUS procedures indicated in pancreatobiliary diseases. Like during the past edition, we have scheduled an HANDS-ON TRAINING PROGRAM that, following the sold out session organized last year, has been divided in two sessions covering the whole day, allowing to a higher selected number of participants to improve their EUS skills under the supervision of a Team of Trainers.

So welcome again and let’s have a great EURO-EUS 2019!!!
